

"We are a community of believers spurring one another on toward Christ, offering academic support to our families while retaining the parents' God-given right and responsibility to educate their children. We are equipping students to walk into their God-given destinies."

Crossroads Christian Academy provides academic support to families homeschooling through high school, as well as a community of believers with which to learn and grow. We charge a \$25 per student per month facility fee, and then offer as many free classes as possible. We offer fee-based classes as well, where the families pay the instructors directly.

Students can take one class or many. We meet on Mondays and Thursdays. On the other three days your students will work at home to complete their assignments. We can help with transcripts. Seniors can participate together in our graduation ceremony. We do quarterly community service projects. We meet at Centennial Covenant Church, 401 W. Mineral Ave., Littleton, CO 80120.
